

Outward opening timber window “Aru 60 CLASSIC EX” is a one-sash window. With a traditional look due to its slender profile and the ease of opening outwards, it is a suitable choice for a country house or as a glass facade for a modern summer house.

A pivoted swing opening to make window cleaning easier is also available.

Casement fasteners

Cranked handles for window espagnolettes

The bottom sash of the multi-layered deep-impregnated timber window is protected with an aluminium glazing bead. To reduce heat loss at the edge of the glass, we recommend using an insulated glazed unit that has SWS (plastic) spacers rather than the traditional metal.

OUTWARD OPENING VACUUM DEEP-IMPREGNATED WOODEN WINDOW
